

DC930&DC940 Small Character Inkjet Printer

- ◆Printing Chinese characters up to 220 m/min
- ♦Multi nozzle:70u, 55u, 42u nozzle
- ◆Various ink colors: black, white, blue, red, etc
- ◆Easy to maintain
- ◆Online editing
- ♦Widely used in food, beverage, chemical, cable pipe and other industries.

Simple ink system design, convenient daily use and maintenance.

Reliable

Stable and reliable ink system, safe and efficient.

Economical

Use and maintenance at ease, cost-effective choice.

Features:

	Production date, expiration date, lot number, graphics, logo, count, time, date, shift, etc
Printing	DC930:1 to 5 lines (32 dots); DC940:1 to 8 lines (48 dots)
specifications	Printing speed:410m/min (5*5, single line)
	Direct input simplified Chinese, traditional Chinese, English, Arabic, Persian, support vector fonts
	10.1-inch touch screen
Intorfaces	Universal USD interface, plug and play, easy backup and restore printed text and configuration
Interfaces	Ethernet communication interface (10~100MB)
	Supports RS232-485 communication
	Security code, variable barcode printing, QR code, etc
	Android control system, easy to use, stable and reliable. Multi-language software interface, easy to switch
	User friendly interface-WYSIWYG. Built-in full-screen graphics editor, easy to edit graphics and logo
	8GB memory storage space; Upgrade software over Ethernet. Pop-up periodic device maintenance reminder
	RUN/STOP hotkeys automatically switch on and off the machine
Software	Real-time date and time display
function	Preset standard and multi-line high speed print mode to meet different user needs
	A variety of text formats: mirror flip, up and down flip, anti-white, bold, double point spacing and so on
	Text can add up to 3 counters and 4 shifts
	OPS synchronous printing reverse compensation function
	DMS automatically calculates the meter pulse
Types of ink	DMS automatically calculates the meter pulse
	DMS automatically calculates the meter pulse Multi-level passwords assign different permissions to different users Full range of ink, pigment and dye inks, multi colors. The specific type and parameters shall be subject to the sampling test TUV-ISO9001 quality system
Types of ink Certification	DMS automatically calculates the meter pulse Multi-level passwords assign different permissions to different users Full range of ink, pigment and dye inks, multi colors. The specific type and parameters shall be subject to the sampling test
	DMS automatically calculates the meter pulse Multi-level passwords assign different permissions to different users Full range of ink, pigment and dye inks, multi colors. The specific type and parameters shall be subject to the sampling test TUV-ISO9001 quality system
Certification	DMS automatically calculates the meter pulse Multi-level passwords assign different permissions to different users Full range of ink, pigment and dye inks, multi colors. The specific type and parameters shall be subject to the sampling test TUV-ISO9001 quality system CE(EMC,MD&LVD)
Certification Appearance	DMS automatically calculates the meter pulse Multi-level passwords assign different permissions to different users Full range of ink, pigment and dye inks, multi colors. The specific type and parameters shall be subject to the sampling test TUV-ISO9001 quality system CE(EMC,MD&LVD) Stainless steel case, IP54 protection rate
Certification	DMS automatically calculates the meter pulse Multi-level passwords assign different permissions to different users Full range of ink, pigment and dye inks, multi colors. The specific type and parameters shall be subject to the sampling test TUV-ISO9001 quality system CE(EMC,MD&LVD) Stainless steel case, IP54 protection rate Standard umbilical:20 mm in diameter, 2.5 m in length
Certification Appearance	DMS automatically calculates the meter pulse Multi-level passwords assign different permissions to different users Full range of ink, pigment and dye inks, multi colors. The specific type and parameters shall be subject to the sampling test TUV-ISO9001 quality system CE(EMC,MD&LVD) Stainless steel case, IP54 protection rate Standard umbilical:20 mm in diameter, 2.5 m in length Cabinet dimensions: height 576 mm x width 360 mm x depth 328 mm Nozzle dimensions:210 mm * 45 mm * 50 mm Net weight:27 kg
Certification Appearance	DMS automatically calculates the meter pulse Multi-level passwords assign different permissions to different users Full range of ink, pigment and dye inks, multi colors. The specific type and parameters shall be subject to the sampling test TUV-ISO9001 quality system CE(EMC,MD&LVD) Stainless steel case, IP54 protection rate Standard umbilical:20 mm in diameter, 2.5 m in length Cabinet dimensions: height 576 mm x width 360 mm x depth 328 mm Nozzle dimensions:210 mm * 45 mm * 50 mm
Certification Appearance parameter	DMS automatically calculates the meter pulse Multi-level passwords assign different permissions to different users Full range of ink, pigment and dye inks, multi colors.
